These studies were carried out at An Giang University, and Chau Thanh Dairy Cow farm in An Giang Province, Vietnam and management of the Swedish University of Agricultural Sciences (SLU) with financial support from the Swedish International Development Cooperation Agency, Department for Research Cooperation (Sida/ SAREC). I am grateful for the support from all these institutions.

I would like to express my sincere thanks to:

Prof. Dr. Hans Wiktorsson, my main supervisor, for all his ideas, knowledge and experience. Thanks for unceasing support in research and social activities.

Dr. Ngo Van Man, my second supervisor, who has given me invaluable support, encouragement, criticism, excellent skilled technical assistance, and guidance throughout my study. His reading and correcting and follow-up of this thesis from the beginning to the end have enabled me to accomplish this work successfully.

Prof. Dr. Luu Trong Hieu and Dr. Ngo Van Man, my co-supervisor, for valuable advice, encouragement, enthusiasm and discussions throughout the study.

Assoc. Prof. Dr. Brian Ogle, Director of the “Vietnam – SAREC Sustainable Livestock Production System” project, for valuable support, especially in correction of my English.

Assoc. Prof. Dr. Inger Ledin, former Head of Department of Animal Nutrition and Management, Swedish University of Agricultural Sciences (SLU) for kind help during my study.

Dr. Thomas R. Preston, Consultant of the “Vietnam – SAREC Sustainable Livestock Production Systems” project, for valuable advice and discussions.

Professors, lectures and assistant lecturers in courses which I have attended during my studies for sharing their valuable knowledge.

Thanks Mr.Cong, for all his assistance when we stayed at Nong Lam University and traveling to Hanoi and Thailand.

Associate Prof. Dr. Vo Tong Xuan, Rector of An Giang University for giving me permission to study, facilitation and encouragement.

My Dean, Mr. Vo Tong Anh, Dean of Agriculture and Natural Resources Faculty of An Giang university for giving me permission to study, facilitation and encouragement.

My colleagues at the Department of Animal Husbandry and Veterinary Medicine of Agriculture and Natural Resources Faculty of An Giang University for performing the chemical analyses and sharing experiences in scientific research and social activities

Dr. Man's students, Cong, Hoa, and my students, for help me in taking care the experiments

To my friends in the MSc. Course, from Thailand, Lao, Cambodia and Vietnam for giving me a warm and friendly atmosphere

To my big family, for all their support and encouragement throughout my study
And special thanks to my Husband Tran Xuan Hien who understood my work, and shared the happiness and sadness with me, for his loving, unceasing support and patience for my whole- life study.
